# Global Iman Fund

## Notes to the financial statements

June 30, 2015 (unaudited)

---

### 1. Reporting entity

The Global Iman Fund (the "Fund") is an open-ended investment unit trust established under the laws of the Province of Ontario. The Fund was established on February 6, 2009, and commenced operations on March 10, 2009. Global Growth Assets Inc. ("GGA" or the "Fund Manager") is the fund manager and CIBC Mellon is the Fund's custodian.

The address of the Fund's registered office is 100 Mural Street Suite 201, Richmond Hill, Ontario L4B 1J3.

These financial statements were authorized for issue by the Fund Manager on August 13, 2015.

### 2. Basis of presentation and adoption of IFRS

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS").

The Fund adopted this basis of accounting in 2014 as required by Canadian securities legislation and the Canadian Accounting Standards Board. Previously, the Fund prepared its financial statements in accordance with Canadian generally accepted accounting principles as defined in the Part V of the Chartered Professional Accountants Canada Handbook ("Canadian GAAP").

### 3. Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

#### *Financial instruments for fair value*

##### a) Classification and recognition

Investments include financial assets such as equity securities. The Fund has elected to apply IFRS 9 Financial Statements (as amended in November 2013) ("IFRS 9") retrospectively to January 1, 2013. Upon initial recognition, financial instruments are classified as at fair value through profit or loss ("FVTPL"). All financial assets and liabilities are recognized in the Statement of financial position when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flow from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date.

Financial instruments are subsequently measured at fair value with changes in fair value recognized in the Statement of income and comprehensive income.

The cost of investments is based on the weighted average cost of investments. Realized gains and losses on disposition, including foreign exchange gains or losses on such investments, are determined based on the average cost of investments. Gains and losses arising from changes in the fair value of the investments are included in the Statement of income and comprehensive income for the period in which they arise.

# Global Iman Fund

## Notes to the financial statements

June 30, 2015 (unaudited)

---

### 3. Significant accounting policies (continued)

#### b) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets (such as publicly traded securities) are valued at their close prices at the close of trading on the reporting date. In circumstances where the last traded price is not within the bid-ask spread, management will determine the point within the bid-ask spread that is most representative of fair value.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

Foreign exchange forward contracts are valued based on the difference between the value of the contract on the valuation date and the value as the date the contract was originated.

#### *Investment income*

Dividend income is recognized on the ex-dividend date. Realized and unrealized gains and losses from investment transactions are calculated on a weighted average cost basis. Income, realized gains (losses) and unrealized appreciation (depreciation) are allocated among the series on a pro-rata basis.

The Fund generally incurs withholding taxes imposed by certain countries on investment income and capital gains. Such income gains are recorded on a gross basis and the related withholding taxes are shown as a separate expense in the Statements of Income and Comprehensive Income.

#### *Foreign currency translation*

The Fund's subscriptions and redemptions are denominated in Canadian dollars, which is also its functional and presentation currency. This is the currency that most faithfully represents the economic effect of the underlying transactions, events and conditions of the Fund. Foreign currency transactions are translated into the functional currency using the exchange rate prevailing on the trade date. Foreign currency assets and liabilities denominated in a foreign currency are translated into the functional currency using the exchange rate prevailing at the measurement date. Foreign exchange gains and losses relating to cash are presented as "Foreign exchange gain (loss) on cash" and those relating to other financial assets and liabilities are represented within "Realized gain on disposal of investments" and "Change in net unrealized appreciation of investments" in the Statements of income and comprehensive income.

#### *Cash*

Cash is comprised of deposits with financial institutions.

#### *Distributions*

Income earned by the Fund is distributed to unitholders at least once a year and these distributions are generally reinvested by unitholders of the Fund. Net realized capital gains (reduced by loss carry-forwards, if any) are distributed in December of each year to unitholders.

Unrealized gains and losses are included in the net assets attributable to shareholders and are not distributable until realized. Capital losses are not distributed to shareholders, but are retained to be offset against any future realized capital gains.

# Global Iman Fund

## Notes to the financial statements

June 30, 2015 (unaudited)

---

### 3. Significant accounting policies (continued)

#### *Transaction costs*

Transaction costs are expensed and are included in 'Transaction costs' in the statements of comprehensive income. Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of an investment, which include fees and commissions paid to agents, advisors, brokers and dealers.

#### *Net asset value attributable to holders of redeemable units per unit*

A separate Net asset value ("NAV") is calculated for each series of units of the Fund by taking the series' proportionate share of the Fund's common assets less that series' proportionate share of the Fund's common liabilities and deducting from this amount all liabilities that relate solely to a specific series. The NAV per unit for each series is determined by dividing the NAV of each series by the number of units of that series outstanding on the valuation date.

#### *Increase (decrease) in net assets attributable to holders of redeemable units per unit*

Increase (decrease) in net assets attributable to holders of redeemable units per unit in the statements of comprehensive income is calculated by dividing the increase (decrease) in net assets attributable to holders of redeemable units by the weighted average number of units outstanding during the period.

### 4. Critical accounting estimates and judgments

The preparation of financial requires management to use judgement in applying its accounting policies and to make estimates and assumptions about the future. The following discusses the most significant accounting judgements and estimates that the Fund has made in preparing the financial statements:

#### *Classification of Redeemable Units Issued by the Fund*

Under Canadian GAAP, the Funds accounted for their redeemable shares as equity. Under IFRS, International Accounting Standards ("IAS") 32 requires that units of an entity that include a contractual obligation for the issuer to repurchase or redeem them for cash or another financial asset be classified as a financial liability. The Fund's units do not meet the criteria in IAS 32 for classification as equity and therefore, have been reclassified as financial liabilities' on transition to IRFS.

### 5. Financial instruments risk

The Fund's activities exposes it to various types of risks that are associated with its investment strategies, financial instruments and markets in which it invests. The most significant risks include credit risk, liquidity risk and market risk (including price risk and currency risk). The level of risk depends on the Fund's investment objectives and the type of securities it invests in. These risks and related risk management practices employed by the Fund are discussed below:

#### *(a) Credit risk*

The Fund is exposed to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when due. All transactions in listed securities are settled upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligations

The Fund's credit risk is assessed as minimal as cash represents a small portion of the total portfolio of investments.

# Global Iman Fund

## Notes to the financial statements

June 30, 2015 (unaudited)

---

### 5. Financial instruments risk (continued)

#### *b) Liquidity risk*

Liquidity risk is the possibility that investments of the Fund cannot be readily converted into cash when required. The Fund may be subject to liquidity constraints because of insufficient volume in the markets for the securities of the Fund or the securities may be subject to legal or contractual restrictions on their resale. In addition, the Fund is exposed to daily cash redemptions of redeemable units. The units of the Fund are redeemed on demand at the current net asset value per unit at the option of the unitholder. Liquidity risk is managed by investing the majority of the Fund's assets in investments that are traded in an active market and can be readily disposed. The Fund aims to retain sufficient cash and cash equivalent positions to maintain liquidity; therefore, the liquidity risk for the Fund is considered minimal. In addition, the Fund maintains sufficient cash on hand to fund anticipated redemptions.

All of the Fund's financial liabilities as at June 30, 2015 and December 31, 2014 are due within three months. Redeemable units are redeemable on demand at the holder's option.

#### *(c) Market risk*

The Fund's investments are subject to market risk, which is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market total prices. The following include sensitivity analyses that show how the net assets attributable to holders of redeemable units would have been affected by a reasonably possible change in the relevant risk variable at each reporting date. In practice the actual results may differ and the differences may be material.

#### *i) Currency risk*

The Fund holds assets and liabilities that are denominated in currencies other than the Canadian dollar, the functional currency. It is therefore exposed to currency risk, as the value of the securities denominated in other currencies will fluctuate due to changes in exchange rates. As well, the Fund may enter into forward foreign exchange contracts primarily with the intention to offset or reduce exchange rate risks associated with the investments and also, periodically, to enhance returns to the portfolio. The Canadian dollar value of forward foreign exchange contracts is determined using forward currency exchange rates supplied by an independent service provider. Losses may arise due to a change in the value of the foreign currency or if the counterparty fails to perform under the contract.

## Notes to the financial statements

June 30, 2015 (unaudited)

### 5. Financial instruments risk (continued)

#### (c) Market risk (continued)

##### i) Currency risk (continued)

The tables below summarize the Fund's exposure to currency risks as at June 30, 2015 and December 31, 2014. Had the exchange rate between the Canadian dollar and the foreign currencies increased (decreased) by 10%, with all other variables held constant, net assets attributable to holders of redeemable units would have (decreased) increased by \$2,615,385 (December 31, 2014 - \$1,968,054). In practice, actual results may differ from this sensitivity analysis.

<b>June 30, 2015</b>	<b>Monetary assets</b>	<b>Non-monetary assets</b>	<b>Net exposure</b>	<b>Percentage of net assets</b>

### 5. Financial instruments risk

#### (c) Currency risk (continued)

##### ii) Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk). The Fund Manager aims to moderate this risk through a careful selection and diversification of securities and other financial instruments within the limits of the Fund's investment objectives and strategy.

The impact on net assets of the Fund due to a 10% change in the Dow Jones Sustainability World Index and the Dow Jones Islamic Market Totals 100 index (the "benchmark"), using a historical correlation between the return of the Fund as compared to the return of the Fund's benchmark, as at June 30, 2015 and December 31, 2014, with all other variables held constant, is included in the following table.

	June 30, 2015	December 31, 2014
	\$	\$
Impact on net assets	2,686,071	2,111,896

This analysis assumes that all other variables remained unchanged. The historical correlation may not be representative of the future correlation.

#### (d) Concentration risk

Concentration risk arises as a result of the concentration of exposures within the same category, whether it is geographical location, product type, industry sector or counterparty type. The following is a summary of the Fund's concentration risk:

Market Segment	June 30, 2015	December 31, 2014
	%	%
Energy	6.8%	11.3%
Materials	9.6%	4.4%
Industrials	5.4%	5.9%
Consumer Discretionary	8.2%	5.0%
Consumer Staples	6.9%	8.2%
Health Care	28.4%	23.6%
Information Technology	28.4%	31.7%
Telecommunications	3.7%	3.1%
<b>Total</b>	<b>97.4%</b>	<b>93.2%</b>

## Notes to the financial statements

June 30, 2015 (unaudited)

---

### 6. Fair value measurement

The Fund classifies the fair value of its financial instruments within a hierarchy which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are as follows:

- Level 1: Fair value based on unadjusted quoted prices in active markets for identical assets or liabilities that the Manager has the ability to access at the measurement date.
- Level 2: Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active.
- Level 3: Inputs based on at least one significant non-observable input that is not supported by market data. There is little if any market activity. Inputs into the determination of fair value require significant management judgment or estimation.

If inputs of different levels are used to measure an asset's or liability's fair value, the classification within the hierarchy is based on the lowest level input that is significant to the fair value measurement. The following fair value hierarchy tables presents information about the Fund's assets and liabilities measured at fair value within the fair value hierarchy as at June 30, 2015 and December 31, 2014.

<b>June 30, 2015</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
	\$	\$	\$	\$
Financial assets				
Equities	<b>26,153,702</b>	-	-	<b>26,153,702</b>
<b>Total financial assets</b>	<b>26,153,702</b>	-	-	<b>26,153,702</b>

<b>December 31, 2014</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
	\$	\$	\$	\$
Financial assets				
Equities	19,680,519	-	-	19,680,519
<b>Total financial assets</b>	<b>19,680,519</b>	-	-	<b>19,680,519</b>

There have been no transfers between levels during the periods.

The carrying value of cash, subscriptions receivable, dividends receivable, other receivables, payable for investments purchased, management fees payable and other accrual expense approximate their fair value given their short term nature.

### 7. Redeemable units

The Fund may issue an unlimited number of shares of each series.

During the periods ended June 30, 2015 and December 31, 2014, the number of units issued redeemed and outstanding was as follows:

	Series A		Series F	
	2015	2014	2015	2014
Units outstanding - beginning	1,055,646	807,470	249,329	55,159
Redeemable units issued	224,510	324,154	44,326	198,072
Redeemable units redeemed	(19,310)	(82,959)	(30,087)	(5,091)
Units issued on reinvestment of distributions	-	6,981	-	1,189
<b>Units outstanding - end</b>	<b>1,260,846</b>	<b>1,055,646</b>	<b>263,568</b>	<b>249,329</b>

### 8. Management fees and expenses

#### *Management fees and related party transactions*

The Fund pays the Fund Manager an annual management fee of up to 2.5% in the case of Series A units and up to 1.5% in the case of Series F, subject to Harmonized Sales Taxes as applicable, to cover management expenses. The management fee is calculated and accrued daily and is paid on the last day of each month based on the average daily net asset value of the Fund. For the period ended June 30, 2015, the management fee was \$330,921 (December 31, 2014 - \$450,566), of which \$62,212 (December 31, 2014 - \$48,273) remains payable.

#### *Expenses*

The Fund is responsible for the payment of all direct expenses related to its operations, such as brokerage commissions and fees, taxes, audit and legal fees, safekeeping and custodial fees and other expenses. Each series of units of the Fund is responsible for the operating expenses that relate specifically to that series.

The total remuneration paid to members on the Independent Review Committee during the period ended June 30, 2015 was \$375 (December 31, 2014 - \$375).

Certain administration and custodian fees have been absorbed by the Manager. These expenses are noted on the Statements of comprehensive income. Such absorption can be terminated by the manager at any time without notice.

### 9. Brokerage commissions and soft dollars

The Fund paid \$6,011 in brokerage commissions and other transaction costs for portfolio transactions for the period ended June 30, 2015.

### 10. Increase in net assets attributable to holders of redeemable units per unit

The increase in net assets attributable to holders of redeemable units per unit for the period ended June 30, 2015 and December 31, 2014 is calculated as follows:

<b>Series A</b>	<b>June 30 2015</b>	December 31, 2014
	\$	\$
Increase in net assets attributable to holders of redeemable units	1,489,567	1,643,453
Weighted average units outstanding during the period	1,178,450	944,988
Increase in net assets attributable to holders of redeemable units per unit	1.26	1.74
<b>Series F</b>	<b>June 30 2015</b>	December 31, 2014
	\$	\$
Increase in net assets attributable to holders of redeemable units	389,572	248,371
Weighted average units outstanding during the period	264,188	145,296
Increase in net assets attributable to holders of redeemable units per unit	1.47	1.71

### 11. Income tax

The Fund qualifies as a mutual fund trust under the provisions of the *Income Tax Act (Canada)* ("ITA"). The Fund is subject to tax on its income, including net realized capital gains, for the year in which it is not paid or payable to the unitholders as at the end of the year. Income taxes on net realized gains not paid or payable by the Fund is generally recovered by virtue of refunding provisions contained in the ITA and provincial income tax acts, as redemptions occur. The Fund ensures sufficient distributions of income and of net realized capital gains are made to unitholders of record for the Fund, so that no provision for income taxes is required in the financial statements.

As at June 30, 2015, the Fund has capital losses of \$Nil (2013 - \$Nil).

The Fund has non-capital loss carryforward balances of approximately \$44,517 which expire in 2030 and 2032 (2013 - \$44,517 which expire in 2030 and 2032). No value has been recognized in the Statements of Financial Positions with regards to the loss carryforwards.
